

# IEEE International Microwave Biomedical Conference (IMBioC 2026)

26–29 April 2026

University of Calabria (UNICAL), Cosenza – Italy

<https://imbioc2026.dimes.unical.it>

The **IEEE International Microwave Biomedical Conference (IMBioC 2026)** will be held from **April 26 to 29, 2026**, at the **University of Calabria (UNICAL)**, in Cosenza, Italy. It is one of the leading international events dedicated to radio-frequency and microwave technologies applied to biomedicine. Sponsored by the **IEEE Microwave Theory and Technology Society (MTT-S)**, IMBioC represents a key forum for dialogue between cutting-edge scientific research and industrial innovation.

The Conference brings together a highly qualified international community of researchers, professionals, students, and leading companies active in the fields of RF, microwave and THz technologies, biomedical antennas, bio-electromagnetics, contactless and wearable devices, implantable systems, electromagnetic imaging, wireless telecommunications, telemedicine, and systems for biomedical applications.

The scientific program, structured into oral and poster sessions, keynote lectures, and focused sessions, ensures high visibility for the most innovative solutions and emerging technologies, offering an ideal environment for technology transfer, high-level networking, and the development of collaborations between industry and academia.

IMBioC 2026 features dedicated exhibition areas designed to enable organizations and companies to:

- present innovative products, instrumentation, and services;
- establish direct contact with researchers and decision-makers;
- explore opportunities for industrial research and co-development;
- engage in discussions on education and recruitment of highly specialized personnel.

The financial support of sponsors and exhibitors represents a strategic investment, providing qualified visibility at both national and international levels and, above all, fostering direct relationships with research groups engaged in the development of cutting-edge microwave technologies for biomedicine.

## Sponsorship Opportunities

For organizations and companies interested in sponsoring the event, IMBioC is committed to implementing targeted initiatives to ensure visibility, promotion, and active participation in the Conference, as outlined below:

Level	Sponsorship fee	Included services
Gold Sponsor	€ 2000 (+VAT)	<ul style="list-style-type: none"><li>• Display of the Sponsor's logo on the Conference website (with link to the Sponsor's official website), within the Conference venue, and on informational material distributed to participants.</li><li>• Exhibition space with two standard tables (80 × 160 cm) within the Conference venue.</li><li>• Complimentary registration for two delegates to the Conference and social events.</li></ul>
Silver Sponsor	€ 1000 (+VAT)	<ul style="list-style-type: none"><li>• Display of the Sponsor's logo on the Conference website (with link to the Sponsor's official website), within the Conference venue, and on informational material distributed to participants.</li><li>• Exhibition space with one standard table (80 × 160 cm) within the Conference venue.</li><li>• Complimentary registration for one delegate to the Conference and social events.</li></ul>
Bronze Sponsor	€ 750 (+VAT)	<ul style="list-style-type: none"><li>• Display of the Sponsor's logo on the Conference website (with link to the Sponsor's official website), within the Conference venue, and on informational material distributed to participants.</li></ul>

All details regarding the contribution procedures may be requested from the Conference Organizing Committee.

The Organizing Committee is also available to provide further information and to discuss customized sponsorship opportunities beyond those listed above.
